## TWO MORE DIE IN RACE WAR!

JANE PALANSKI is just 18 years-old, yet in March this year her unborn baby was murdered and she was nearly killed in the latest act in a campaign of racial terror. There has been no outcry in the papers because Jane is White and the murderers were Black.

Jane Palanski's great grandparents fled from Czechoslovakia when their country was threatened by communist Russia. Jane grew up in York but came to London about a year ago. She made friends with a number of young NF sympathisers and shared a flat in South London with some of them. They became known locally as NF sympathisers and attracted the attention of local Blacks.

### ATTACKED

On Sunday 25th March the people in the flat were woken up by the sound of stones being thrown at the windows. They saw a small group of about 10 Blacks with a couple of renegade Whites outside. The three men and Jane who were in the flat went outside and chased them off around the corner into a cul-de-sac, where a gang of about 40 Blacks attacked

■ Jane Palanski with 'Geordie's' bloodstained clothes.

them. Peter Matthewson, known as 'Geordie' was stabbed between 50 and 70 times, he was pinned to the ground while bricks were dropped onto his head and then acid was poured over his face. He died on the way to hospital. When his parents came down from Newcastle to identify his body, at first they said it was not

# ALIEN WARS ON BRITAIN'S SHORES

BRITAIN'S STREETS ARE becoming a battlefield. A battlefield where coloured immigrants are fighting out their own private wars. Wars that have nothing to do with Great Britain and nothing to do with the British people.

No town or city that has a coloured population is spared as these volatile aliens burn and stone each others' buildings. No British home or British family in these areas is safe as these excitable foreigners carry on their feud in our schools and colleges and on our streets. British policemen are injured as these ungrateful immigrants make a nonsense of their adopted British Nationality by setting up governments in exile and demanding their own homeland of Khalistan.

### IMPLEMENTED AND ENCOURAGED

Those Labour and Conservative politicians, who over the last thirty years have implemented and encouraged coloured immigration, are guilty of the most horrendous crime against the British people. Look what they have done to our country... the evidence speaks for itself.

■ These volatile aliens burn and stone each others' buildings.

### London....

ON SUNDAY 10th June London's streets were taken over by a 30,000 strong Sikh army who marched from Hyde Park Corner through the West End calling for the death of Indian prime minister Mrs. Indira Gandhi.

The march, which was led by Sikh warriors carrying 5ft long sabres, burnt effigies of Mrs Gandhi and police made numerous arrests as the marchers wound themselves up into a fury.

Sikh leader Bir Devinder Singh Parmar predicted there would be "violence on the streets of Britain" as the Sikhs took revenge on other Indians for the death of Sikhs in India. "I am sanctioning an eye for an eye and a tooth for a tooth".

TWO DAYS before the London march on June 8th, two Hindu temples in Southall were broken into and set alight. Asian leaders believe that Sikhs were responsible.

An organisation allied to the All-India Sikh Students Federation claimed responsibility for a petrol-bomb attack on the Indian High Commission on June 4th.

### Birmingham....

POLICE HAVE interviewed Asian leaders over the outbreaks of racial violence in Birmingham.

The move follows an escalation in racial tension in the city caused by religious differences, between Sikh and Moslem sections of the community.

The latest incident was at Matthew Boulton Technical College in Pershore

Road, Birmingham where several youths were injured when over 30 Muslims stormed the college library.

A West Midlands Police spokesman said,

"A number of incidents have occurred recently in Birmingham involving groups of Asian youths in confrontation. These are currently being investigated by the Police."

■ Strange Britons demanding a homeland in Khalistan.

TWO INDIAN buildings in Birmingham were the targets of petrol-bomb attacks at 5 o'clock in the morning of Thursday 7th June.

Thousands of pounds worth of damage was caused at the Hindustan Travel Service in Soho Road, Handsworth and the Punjab National Bank in Constitution Hill.

Police believe the attacks were the work of the Sikh community.

### Reading....

CONTINUING VIOLENCE between rival Muslim groups in Reading is being investigated by the Police.

In the latest incident fighting broke out at the Alexandra Road Mosque in the town and spilled out into neighbouring front gardens as Muslim fought Muslim with knives, ornamental swords and wooden staves. Police made a number of arrests while the injured were taken to the Royal Berkshire Hospital.

White residents in Alexandra Road are fed up with having their Sunday evenings disrupted by such free-for-all outside their homes.

"This is the second time this week that we've had a battle in the road",

### SWORDS DRAWN

What other sections of our community could march in such a manner?

### Rochdale....

A MOSLEM suffered a broken skull when a full-scale battle erupted in a mosque in South Street, Rochdale.

Bricks were hurled and wooden staves used in a dispute between rival muslims over the appointment of a new priest or imman to the mosque.

Police made nine arrests, all of whom were charged with making an affray.

### Liverpool....

A POLICEMAN was set on fire by a petrol bomb thrown by Sikhs demonstrating outside the Indian High Commission in Liverpool. Other policemen were stoned by the same mob as they tried to arrest the culprit.

Sikh spokesman, Dr. Sardar Singh warned of more bloodshed and violence in other protest marches. He refused to condemn the violence and said "This is the only action these people can take. They find themselves totally helpless to do anything else in this holy war in which every Sikh is involved."

■ A British bobby is set on fire by a 'Sikh petrol bomb'.

The National Front has always said that foreign violence would spill onto the streets of Britain. There is only one solution — a programme of total repatriation of all coloured immigrants . . . . NOW!

## Repatriation vindicated

THERE ARE 24 million too many people living in Britain, reports the organisation Population Concern in a booklet called *Population Misconception*.

The number of people living in the United Kingdom has increased by 5 million between the years 1950 and 1980 and this despite a drastic drop, in the seventies, of the birth-rate of its white residents. The figures show clearly that such an increase in the population of Britain has been caused by the large scale immigration of black and brown people from Africa, Asia and the West Indies and the subsequent rapid birth-rate of these people.

### DENSELY POPULATED

*Population Misconceptions* reveals that the United Kingdom is 2½ times more densely populated than China, and that the British people are living "on a shopping basket filled with 45% foreign food". The booklet concludes that Britain must reduce its population to 30 million and lists the benefits of such a policy.

"... the housing problem would virtually disappear, school classes would be far smaller, and with the possible exception of the central areas of the largest towns, a motor vehicle for every adult would be a perfectly practicable proposition. But perhaps the most decisive point of all is that at this population Britain could be entirely self-supporting in respect of her food requirements, and without having to resort to the degrading and even dangerous practices of 'factory farming'. Britain's present dependence, in a hungry world, on the importation of so much of her total food consumption places her in a potentially vulnerable position."

### VINDICATION

National Front News welcomes this timely report from Population Concern as a total vindication of the National Front's much maligned 'repatriation of coloured immigrants policy.

Out of all Britain's political parties, only the National Front has continually warned of the dangers of allowing large scale coloured immigration to our already overcrowded island. Out of all of Britain's political parties, only the National Front has continually warned of the dangers of the explosive birth-rate of the coloured immigrants living in Britain.

*Population Misconceptions* is an important addition to the armoury of the National Front for our arguments in support of our repatriation policy. There can be no doubt about the potency of the booklet and the lack of coverage of the report in the press was almost certainly due to 'orders from above' to minimise the effect of its findings.

National Front News does not take 'orders from above' and will be doing its utmost to warn the British people of the impending disasters unless substantial reductions in our population are made.

## \* Letter of the Month

Dear Sir,

I would like to comment on the editorial in the May issue of National Front News. While it may be argued that the paving bill to abolish the GLC elections due to be held next year is undemocratic, to claim that the abolition of the GLC is an undemocratic act is rubbish. Since this artificial body was brought into existence by parliament, parliament as the sovereign governing body in our country, has the authority to abolish it. Moreover the Tory party's commitment in their manifesto to abolish the GLC was well publicised at the last election.

With scant regard for consistency, your article in support of the miners strike, was not qualified by a call for a national ballot. This would seem to be avoiding the party's long stand-

ing commitment to industrial democracy. If as claimed by Arthur Scargill, it is true that ¾ of the miners are out on strike, he can have nothing to fear from holding a national ballot. Especially as the recent NUM rule change requires only a simple majority, rather than the previous 55 per cent.

If the strike is to be successful, a ballot is the only way forward as the Notts miners have made clear they will not be bullied into striking but are still prepared to abide by the decision of a national ballot. It would also be very sad if steel works that survived MacGregor's axe were to close down because of the miners strike.

Yours faithfully,  
Mark T. Spong  
Lambeth Branch.

Front launches campaign against....

## RURAL VANDALISM

### PROTECT OUR

### HERITAGE!

A BEAUTIFUL ESTATE in Essex — not far from Constable country — has recently been torn apart in an operation described by the 'farmer' who owns the land, as 'a trim and tidy-up.'

Yet this "trim and tidy-up" has meant that boundary hedgerows of blackthorn, hazel and elder have been shaved to ground level. The same has happened to a hedge alongside a footpath which was covered with wild roses, bramble, and bryony.

Gone are many wild flowers. Wide strips of hedgerow running alongside a ditch have been razed to the ground. Wych elms, saplings, shrubs and undergrowth have been destroyed. What was once rural farmland now looks more like a prairie.

Additionally, a stretch of disused railway line, a sanctuary for wildlife of all sorts, has had all its young oaks torn out, been levelled and put under the plough.

### WILDLIFE RESERVES

Many hedgerows in our countryside are hundreds of years old and are wildlife reserves in miniature. So why is it that the 'farmer' — or more accurately

■ We must stop the destruction of our countryside.

the Capitalist parasite who calls himself a 'farmer' — is allowed to destroy a part of Britain's heritage that cannot be replaced?

The National Front believes that this type of rural vandalism should be stopped. The time has come to make it illegal to destroy hedgerows without specific consent. 'Farmers' should no longer be allowed to ruin the ecological balance of the countryside.

### LEGISLATION

The NF believes that legislation must be passed before the birds, butterflies, insects, small mammals, wild flowers, scrubs and grasses become things of the past.

Food must be produced and true farmers must make a living. But this does not have to be at the expense of the British countryside and our native 'wild life.

Areas such as Kent, Essex and East Anglia have suffered more than most, but before the rest of rural Britain is ruined the National Front demands that a halt is called to what must be the worst period of rural vandalism in our history.

We must stop the destruction of our countryside and the annihilation of Britain's wildlife. We must safeguard the beauty of Britain's countryside and the richness of our wildlife. The destruction of our rural heritage must be stopped!

## OVER ARMED OVER FED, and OVER HERE!

■ No to Cruise, No to CND.

HOW DO YOU fancy a pound of prime fillet steak for less than £2.50? Or a pound of steak mince for 80p?

Where can you get meat at that price? Simple — at American military bases in Scotland.

Servicemen and their wives can tuck into prime British beef at prices as low as half what the Scottish housewife pays, courtesy of the EEC.

A Common Market regulation means that US bases, like that at Holy Loch, are regarded as a "third country" outside the EEC — and therefore eligible for subsidies on certain foodstuffs.

### MUCH CHEAPER

It means that beef and pork provided by Scottish suppliers to American bases is regarded as being exported, and can be sold much cheaper.

But the supplier doesn't make a loss. He can claim back the difference between the world price and the EEC price, which is what Scots butchers must pay.

At the moment, the export refund on beef is £62 per 100 kilos of fore

meat, and £105 per 100 kilos of hind.

The US base at Holy Loch gets through 4,540 kg of beef a week. Buying at world prices therefore saves them between £2,815 and £4,767 a week!

Throughout Britain the cheap meat saves the Yanks £60,000 a week — meanwhile thousands of Britons starve for want of basic footstuffs.

### LITTERING

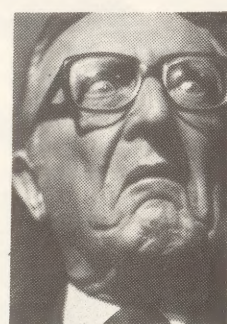

There used to be a popular saying during the war regarding the Americans: "They're over-paid, over-sexed and over here!" That saying is also appropriate today. For not only are the Americans over here, they are turning the UK into a giant US aircraft carrier — with their cruise missile bases littering the British countryside. Thanks to the Yanks the UK is now a prime target for any future Soviet counter-strike.

The National Front says: YANKS OUT NOW!

## NATO rewards Carrington for British betrayal

LORD CARRINGTON has been appointed as the new General Secretary of the American controlled NATO. His appointment has been hailed by the Tory press as a "British success." But is it?

Like the rest of his ilk, Carrington was born with a silver spoon in his mouth. He went to the best schools that money could buy. He has absolutely nothing in common with the ordinary Briton. His rise to the hierarchy of the Tory party and the Capitalist system should come as no surprise. Indeed, his appointment can be seen as his reward for loyalty to that system.

Peter Carrington presided over two major disasters.

During Carrington's reign as Britain's Foreign Secretary, he presided over two major disasters.

First was his betrayal of the Rhodesian Whites. Under his prodding, Rhodesia caved in and handed over its future to Black Marxist terrorists.

Secondly, he totally ignored all the warnings of Argentina's intention to invade the Falklands. Because of this folly, 255 Britons lost their lives. In the crucial days before the invasion, he undertook a pilgrimage to Israel where he conferred with a "like-minded conservative politician," Menachem Begin!

And now he is to be the willing tool of the Yanks and is quite happy to see British forces and hence our people's future, subject to the whims of a foreign power.

Carrington's appointment is indeed a success — for him and his system, but not for us.

## STOP THE SPECULATORS' BONANZA

## DEFEND LONDON'S HERITAGE

THE DESTRUCTION of London as a great architectural city will be completed within 30 years if the Tories go ahead with their proposed disbanding of the Greater London Council's Historic Buildings Division.

For if this body was done away with, the defences against property speculation, re-building and demolition of/or alterations to historic buildings would be done away with too.

The City of London Corporation and most other local authorities — to whom the GLC's Historic Buildings

Division's responsibilities would be transferred — would then become subject to intensive pressure from a property speculator's 'bonanza.'

The National Front is stridently opposed to the idea of mass urban settlement. We also are no friends of mad 'Red' Ken Livingstone's GLC. But we do regard Thatcher's scrapping of the Historic Buildings Division as a prelude to perhaps the greatest act of architectural vandalism that will be sure to hit London if the Capitalists get their way.

NF NEWS last year asked its readers to write to the BBC's programme 'Question Time' to enquire why no representative from the National Front had ever appeared on its panel.

A reader from Liverpool tells his story.

"I wrote to Question Time, and a week later the programme's editor, Ms. Barbara Maxwell, replied telling me that no spokesman for a minor party ever appeared on the panel unless their party had some elected representation.

In November, Mr. Jonathan Porritt, leader of the Ecology Party appeared on the platform. The Ecology Party has no elected representation.

I wrote to Ms. Maxwell informing her of this fact and . . . she ignored my letter. So I wrote to the programme presenter, Sir Robin Day, drawing his attention to the matter and . . . he ignored my letter. I then wrote to the Director General of the BBC Mr. Alistair Milne complaining of double standards and . . . he ignored my letter.

Five months later on May 3rd I received a letter from the BBC's Programme Correspondence Section informing me that "only under special circumstances does the panel include representation from minor parties".

Does this mean that 'under special circumstances', for example the Patrick Harrington affair or the NCCL dispute, a National Front representative will be invited on to the programme?

Why not ask Ms. Maxwell? Send your letters to Ms. Barbara Maxwell, Programme Editor, Question Time, Broadcasting House, London W1A 1AA.

✱

THE DAILY POST of May 20th reports that a visiting Kenyan Churchman was so horrified at the conditions in the Edinburgh housing scheme of Pilton, he went home determined to do what he could to help.

A relief fund has now been set up in Kenya asking Africans to give money to their 'poor fellow Christians in Scotland.'

✱

LABOUR LEADER Neil Kinnock has refused to comment on the activities of Mr. Ernest Roberts, Labour MP for Hackney North and Stoke Newington, regarding his involvement in the dispute between Britain's Communist Party and their daily paper Morning Star.

Roberts was one of the leading contenders for a place on the 15 strong management committee running the paper.

Ernie Roberts is no stranger to NF News. He was a founder organiser and Treasurer of the Anti-Nazi League. A former member of the Communist Party and vice-president of the Marxist Institute for Workers' Control.

Prior to his election to Westminster, Roberts had been banned from standing as a Labour Party candidate because of his extreme Stalinist views.

The fact that he now represents them in parliament is indicative of the present state of the Labour Party.

✱

A TOP supporter of presidential candidate Jesse Jackson predicts a cataclysmic race war in America within two years.

Jackson's excitable aid, Louis Farrakhan, says that in the bloodbath "Blacks will settle scores with Whites".

✱

TWO THOUSAND devout Catholic mourners followed the coffin of 20 year-old Richard Quigley to his grave.

At the Requiem Mass, Father James Shiela said, "We remember him as one who was good, kind and considerate; as one who is an example to others. He will be numbered among the saints in Heaven".

How did Richard Quigley die? He was killed when the massive bomb he had planted blew up prematurely. It was designed to maim and kill hundreds of people.

Good, kind and considerate? An example to others? Numbered among the saints in Heaven?

Is it any wonder that more and more Catholics are condoning the methods of the IRA when they get such 'divine guidance' from their priests!

## Reflections on the Portsmouth by-election campaign

# PROGRESS IN POMPEY

OVER A HUNDRED NF supporters and members of the public attended the National Front's by-election meeting in Portsmouth on June 12th.

Chairman of the meeting, local member Mr. Desmond Vine, introduced a variety of speakers which included the NF candidate for the constituency, local taxi driver, Mr. George 'Ginger' Knight.

Three days later on Friday 15th, after the electors of Portsmouth had given their verdict, NF News spoke to 'Ginger' Knight concerning his reflections on the result.

It was a tired Mr. Knight, he had been up until the early hours that morning, and somewhat disappointed. "I had been pledged double the number of votes that I received, and I'm bemused why these people didn't get out and vote for me on the day. Putting all that aside though, I suppose I can claim that we came 4th out

of 9 candidates when at the General Election I came 5th out of 6. I can also claim that we polled more votes than the 'media-puffed' Ecology Party and more votes than a Liberal Candidate who polled double my vote last June. Our percentage of the vote held up compared to that of the General Election, and I believe I'm right in saying that it's the first time its happened in a by-election since 1978."

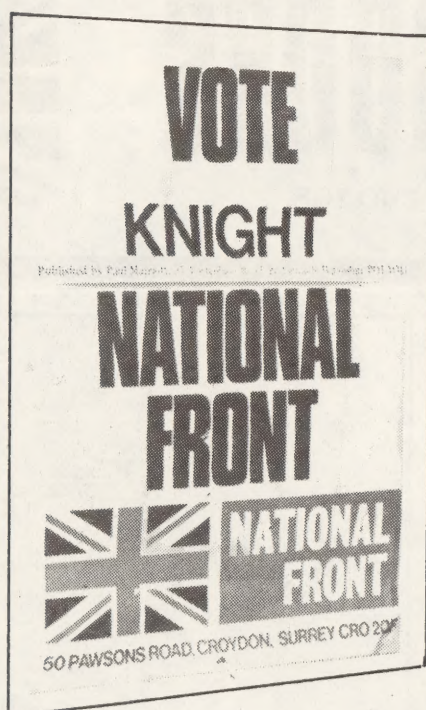

### WORKED WELL

The real progress made in Portsmouth, however, is that the branch worked well during the campaign, new members have been signed up and 'Ginger' Knight has a pile of inquiries on his desk from people wanting information about the Front.

Ginger's hard working agent, John Vivian, summed up the local situation when he told NF News, "At last we're beginning to get things together down here, we have just been drifting along getting nowhere prior to this year".

For the first time ever the supplementary leaflet was printed on the National Front's own printing machine.

Particular thanks must go to the Portsmouth activists who worked so hard and also to Lambeth Branch who gave very considerable help in this campaign.

Meeting chairman Des Vine introduces the meeting's speakers.

## IMMIGRANT/IRA LINKS EXPOSED!

THE LEVEL OF co-operation between the Marxist IRA and Britain's Immigrants has been well documented by the National Front. Recently, a delegation of Brixton Blacks visited Belfast as the guests of Sinn Fein, while Asian community leaders like Manjit Singh openly declare their support for the terrorist methods employed by the IRA.

Now we can expose even further links between the butchers of the IRA and their Immigrant friends.

### OFFICIAL GUESTS

A recent article in the Asian Times disclosed that a delegation of "Asian political activists" from Southall, Newham and Sheffield had visited Belfast. During their stay in the Republican areas, they were the official guests of Sinn Fein, the political wing of the IRA.

On his return to the mainland, Tafaï Doast, a member of the Sheffield Asian Youth Movement, told the Asian Times of his support for the IRA's "armed struggle". He also laid great emphasis on the "mutual support between the Irish people and the Black communities in Britain". He described the welcome given to the Asian delegation by the IRA as "absolutely incredible" and he stated that there was a "marvellous sense of unity" between the two groups.

Doast also told the paper of ways in which the Asian Youth Movement were reciprocating support from the IRA. They had organised a meeting in Sheffield on the subject of Ireland and all sections of the local Asian population had supported it.

However this latest visit to Ulster is only the most recent sign of the growing links which exist between IRA Reds and Britain's Immigrants.

In 1982, Belfast Republicans met with Immigrants during an official visit to London. At the same time, a number of Asians and Blacks joined a demonstration in support of IRA prisoners outside Armagh jail in Ulster. Messages of solidarity with the IRA prisoners came from the Brixton Black Women's Group and the Asian Women's Resource Centre in Brent.

Speaking at the Armagh rally, Roisin Keenan, head of Sinn Fein's Women's Department in Londonderry, spoke of "sexual harassment" of Asian women on the mainland. She told the IRA rally that "Asian women entering Britain

Proof of the IRA/Immigrant link.

are subjected to 'virginity tests' at the hands of male doctors in a callous and racist fashion, abusing their cultural and religious practices."

### MATTER OF TIME

There can be no doubt that the IRA and some Immigrant groups are working very closely together. Asians are already using an assortment of weapons in their fight against 'racism'. During the Southall and Bradford riots their armoury consisted of petrol bombs, knives and clubs. It can only be a matter of time before Asians and Blacks in Britain begin to use the methods and techniques of their Marxist IRA friends.

Asians and Blacks are no strangers to terrorism. Sikhs and Hindus butcher each other in India. Gangsterism is an integral part of any Black political system. How long will it be before the Immigrant communities in Britain take up the "armed struggle" against the British people, in support of their so-called "Fight against Racism"?

## Blisters for Croydon NF

A CROYDON to Brighton sponsored walk staged on June 2nd by members of Croydon National Front was a great success - especially for chiropodists. 26 brave lads left Croydon at 11.00 p.m. on the Friday and 20 actually made it to Brighton by 10.00 a.m. on the Saturday.

## Inner-cities of Fear - Official.

FEAR OF muggings or violent attacks is seriously disrupting life in Britain's inner-cities says a Home Office report published on June 12th.

Twelve percent of all inner-city residents over the age of 61 say they would never go out alone at night because of crime. Of those who do venture out, over half said that they didn't feel safe.

What the survey, which is to be analysed by the police, did not reveal was the cause of the rising crime rate in inner-city areas.

NF News, however, has no doubt that coloured immigration is responsible for the fear felt by Britain's elderly. This is borne out by Scotland Yard crime figures published in 1983 which revealed that 70% of muggers are black, and 70% of their victims are white.

## SWANLEY, KENT 5-A-SIDE FOOTBALL

NEARLY 200 people gathered in Kent on Saturday 16th June for a National Front 5-a-side football competition. On a brilliantly sunny afternoon 26 teams battled it out.

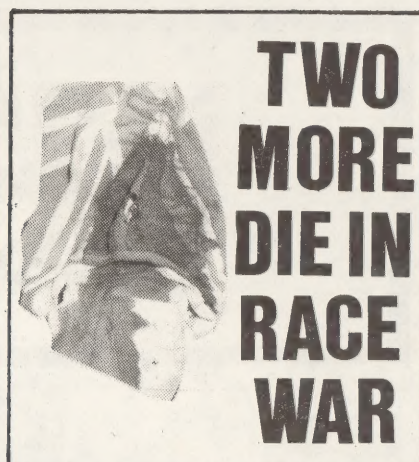

The majority came from London and Kent but teams from as far away as Birmingham, Brighton and East Anglia also competed. Almost as varied was the range of ability displayed which went from the hysterically bad to the supremely good.

Entertainment was also provided by a number of side stalls which contributed to a good day out for the family.

At the end of the day, after a close fought final, Bexleyheath beat South East London and were awarded a special competition shield.

## Darts League.

THE YOUNG National Front's darts league got under way last month with Southwark NF scoring a convincing 6-1 win over Tower Hamlets.

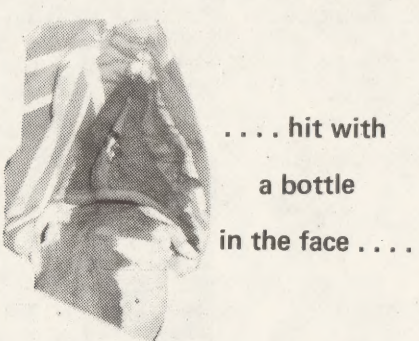

- Continued from page one

him, then they recognised a scar over the right eye. 'Geordie' was 23.

John Seymour was stabbed over twenty times and the Blacks attempted to cut his ear off. He died twice on the way to hospital but was resuscitated. John had open heart surgery and his doctor says he will never work again. John is just 17 years-old.

Dave, the third man, was stabbed several times in the back. Jane was knocked out with a brick and did not regain consciousness for over 12 hours.

Over the next few weeks a barrage of hate mail was sent to Jane at the flat saying that they had killed her boyfriend (which he wasn't) and that she was next. The police did nothing.

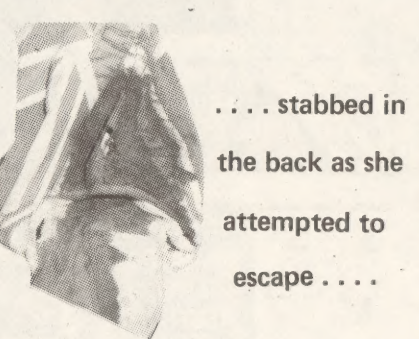

In early April Jane was attacked by the same Blacks and was hit with a bottle in the face and will be scarred for life. She received 14 stitches.

A few days later the same Blacks again found her and pinned her to the ground while they ripped out her stitches with a knife.

Two weeks later her flat was burgled and smashed up. Her television was stolen and hate mail was left behind. At this point the police made the decision to impartially uphold the law by advising her to move out of the area.

Three weeks later she was again attacked and scarred on her face with a knife and kicked around the ground. When she went to hospital they found that she had three cracked ribs. At this time Jane also found that she was pregnant. She approached her solicitor who went to the police who provided a police guard for her flat for just 24 hours.

One week she was stabbed in the back as she attempted to escape the same Blacks. The knife missed her kidneys by less than a millimetre. The doctor said that if she hadn't been running away she would have been killed. The baby was killed.

Jane has now moved away from the area and is living with friends. There has been no public inquiry, no demands for justice from M.P.'s or the newspapers. Some so-called Christian churches even refused to allow a memorial service for 'Geordie' although one has now been arranged.

You may well feel angry after reading this but our anger must not be directed against these animals from South London it must be directed against the traitors in Westminster who have imposed a multiracial nightmare on Britain. It is these traitors who should stand trial for murder and it is these traitors who should be executed.

## Ten Bridges Run

A SPONSORED run over ten of London's bridges on Saturday June 3rd by nine members, one drawn from each of the capital's NF branches, helped raise money for their respective units.

# ON A SUMMER HOLIDAY?

## Not with Brighton NF.

IT'S NO SUMMER holiday when you're a member of the Brighton Branch of the National Front, especially over the last few months. Local NF organiser John Broadley sees to that!

A happy National Front branch is a busy National Front branch, is John's motto and with the support of his committee he certainly makes sure that the Brighton Branch members have the minimum of spare time on their hands.

Launching the Anti-EEC campaign in Newhaven.

The first weekend in June saw the launch of the local campaign against the Common Market which started with the leafletting of the channel port of Newhaven. To create a bit of interest in the leaflets they were handing out in the town that saw the first U.H.T. milk come into Britain, two members displayed a milk churn carrying the words U.H.T., 'Ugh, Horrible Tasting Milk'. All drawing attention to the plight of British cows under the new EEC laws regarding milk quotas.

The next week the campaign moved to Brighton itself with 1,500 leaflets being handed out in Churchill Square, Brighton's main shopping precinct, to Saturday morning shoppers. With anti-Common Market posters mysteriously appearing in Littlehampton, Worthing, Lancing, Shoreham as well as Brighton and a very successful paper sale of Anti-EEC literature in Crawley, the people of Sussex have been left in no doubt of the National Front's views on Europe.

### LENDING LIBRARY

Bookstall — 'business booming'

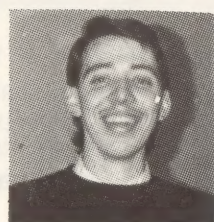

The monthly branch meeting is always an enjoyable get-together with the older and not so active members catching up on the news of what the Branch has been up to. A bookstall and lending library, at the meeting, provides members with all the latest NF merchandise, and also enables unemployed members to borrow books from the library (50p a month) to help develop their understanding of the ideology of the National Front. Caralyn Giles reports business booming, "It's quite common for the book stall to take over £40,00 at a meeting".

THROUGHOUT THIS issue of *National Front News* you will have read of the many activities that the NF has organised in its campaign to fight for Britain.

Internally, the National Front is striving to become as efficient as possible. For it is obvious that we don't stand a hope in hell of coming to power unless we are better organised and more committed than our enemies.

### COMMITMENT

This commitment must take many forms — from the need to turn up week after week to sell papers through to the need to sacrifice everything for our Cause. And there can be no doubting that many National Front members are already making great sacrifices for our Race and Nation. Some give up every second of their spare time to the Struggle, while others risk arrest every week on paper sales and demonstrations. Indeed, some of our members have already served prison sentences for their beliefs. It is certain that many more will lose their freedom before the National Front comes to power. However, there is one other area of commitment which must be stepped

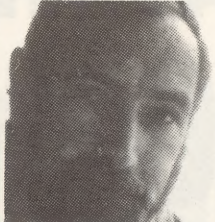

John Broadley

Ted Budden

Caralyn Giles

Bill Kennedy

### BRIGHTON'S COMMITTEE

With the collection at the meeting always well supported and a raffle raising those extra few pounds, Brighton National Front are keeping their heads above water financially and that after fighting two seats at the general election and a council seat this May.

Of course there is a social side to the branch as well as political activity. Monthly film nights and regular social evenings help soothe the blisters got from leafletting. Brighton also sent a team down to Swanley for the National Front 5-a-side championships, where, despite holding Gravesend NF to a 0-0 draw they narrowly lost their other two games 1-2 to Croydon NF and 0-1 to Sevenoaks NF. Also at Swanley, branch committee member Bill Kennedy, who was the candidate at the May elections, set up, for the second year running his successful rifle range stall where IRA terrorists could be filled with air gun pellets for a mere 20p. As usual, Bill was able to hand over to branch treasurer and Chairman Ted Budden a handsome profit from the days activity.

### JULY ACTIVITIES

John Broadley offers no respite for his members during July either! Activities are planned for Brighton, Worthing and Newhaven, together with the monthly paper sale in Craw-

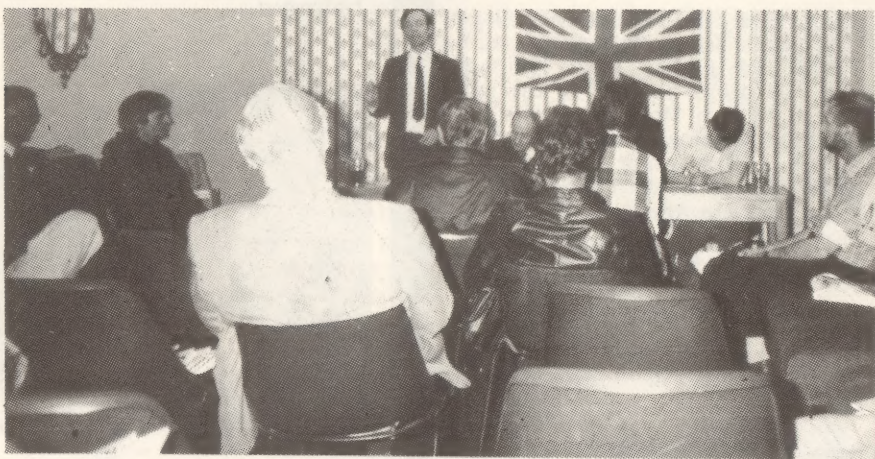

ley and a fund-raising jumble sale.

The extra activities by the branch are reaping rewards. June provided a record number of inquiries from people who had received a leaflet and wanted more information about the party, and new members at the monthly meetings are becoming a regular occurrence.

Brighton Branch's claim to fame amongst the membership of the National Front was the YNF 'British Jobs for British Workers' march in October 1981 when over 1,000 students from Sussex University made a bloody but unsuccessful attempt to stop the young members of the Front from taking to the streets. Is there going to be a march this year? John Broadley won't commit himself, he told *NF News* after the July branch committee meeting "I haven't decided anything yet, but if anyone asks just tell them to keep their weekends free during October".

The Brighton Branch of the National Front is doing its bit for the furtherance of the cause of British Nationalism. IS YOUR BRANCH DOING THE SAME?

If you think your branch warrants a report in *National Front News* for its activities of the last month, then write enclosing details to:— The Editor, *NF News*, P.O. Box 80, Worthing, Sussex BN14 8EG.

The monthly branch meeting is always an enjoyable get-together.

up if we are going to be serious contenders for power. National Front members must become financially committed to our Cause.

Some members have already given their financial commitment to the NF in the past. Those people know how grateful the Party is for their invaluable

## Enriching Our Culture?

—Archbishop Robert Runcie

### GIFTS TO OUR SCHOOLS?

RELIGIOUS EDUCATION in London schools is no longer to be based on Christianity. The Labour controlled Inner London Education Authority revealed its new syllabus last month which features Buddhism, Islam and Judaism as much as traditional teaching.

On the way out along with Christianity in schools is the morning assem-

bly. On May 31st headteachers voted at their annual conference to 'change the law' so that schools do not have to hold daily assemblies and daily acts of worship. The headteachers believe the changes would give them greater flexibility in meeting the needs of a multicultural society.

### GIFTS TO OUR LIBRARIES?

THE BURNING of Britain's children's books continued apace through the months of May and June as left-wing councils up and down the country discovered stories 'that would cause offence to Britain's coloured communities'.

#### IN TOYTOWN

Joining such favourites as Rupert, Asterix, Tintin, Ten Little Niggers and Little Black Sambo on the black list are Enid Blyton's Noddy books — because in Toytown the villains are frequently gollywogs) and Shuri the Gypsy — because it is a negative stereo-type of the travelling community.

With the Robertson's golly battling

for its life on our country's jam-jars, the latest victim of the all-powerful Race Relations lobby is Blackjack — 'an equally racist symbol' — on the wrapper of the liquorice sweet of the same name manufactured by Trebor.

### ENRICHING OUR POLITICS?

ELECTION FEVER boiled over outside a polling booth in Slough as the Liberal candidate fought with the Labour candidate's agent.

Police arrested both Liberal candidate Mushtaq Malik and Labour

agent Mohammed Afzal.

Slough's Deputy Mayor, West Indian Lydia Simmons, said "No one seems to know exactly what the argument was about".

## More 'gifts' next month

## ONE LAW FOR THEM ONE LAW FOR US!

POLICE AT the Edgbaston test match made no attempt to stop West Indian supporters smoking marijuana during the four day game.

A smirking policeman, obviously acting on instructions from above, told a group of reefer totting West Indians, "There's no way I'm going to smell anything from here is there?"

Sebastian Faulks, a correspondent for the Sunday Telegraph, admitted that amongst the West Indian cricket supporters were "ganja-crazed" Rastafarians. (Ganja is West Indian slang for marijuana).

So once again it appears that we have one law for the growing 'Privileged Class' of coloured immigrants in Britain and another for the down-trodden indigenous

Reefer totting West Indian cricket fans.

population. If your black you can break the law and smoke marijuana without fear of arrest, even in the presence of the police. However, if you white, well that's a different story as the music fans at the Stonehenge Festival found out!

## Behind the Scenes!

...and these are your conditions to give me another term in office.

## More News of THE PRIVILEGED CLASS

MAY 25th.

THE ALL-powerful race relations lobby acted swiftly when one of their race relations advisers to the Police Federation had a brainstorm and referred to the *Privileged Class* as 'niggers'.

The apology made by the inspector concerned, Peter Johnson of Durham, to the coloured community was not enough and 24 hours after the incident he was forced to resign his £15,000 a year job.

MAY 27th.

### Champagne Set

THOSE MOST elite and well-spoken members of the 'Privileged Class', the *Pereiras*, have had all this country's immigration laws turned upside down for their benefit.

The 'top-drawer' coloured immigrants celebrated their new found privileges in champagne-style.

JUNE 9th.

ONLY COLOURED immigrant girls were allowed to enter a beauty contest in Manchester.

Miss World organiser Eric Morley claimed that the competition, Miss Black U.K., was unfair because it discriminated against white girls.

"If someone dared to run a Miss White Manchester contest there would be uproar. Black community leaders wouldn't stand for it".

Mr. Morley's remarks were described as 'racist' by a spokesman for the Commission for Racial Equality.

JUNE 10th.

TOOTING MP Tom Cox and Battersea's Alf Dubs were among 200 people attending the opening of a 'Drop-in Centre for Young Blacks' at Beechcroft Road, Tooting.

The centre is financed by the Inner London Education Authority and Wandsworth Council, and its 50 members will be provided with the services of 5 full-time workers - courtesy of London's ratepayers.

White youngsters will not be allowed in the centre.

JUNE 10th.

BLACKS AND Asians will be given special preference when applying for TV quiz and cash winning shows.

Contestant researcher Shirley Jones has recruited Jimmy Tarbuck and Ted Rogers to head a big drive to persuade more non Whites to take part in the shows.

Miss Jones, of Leeds-based Yorkshire TV which produces *Winner Takes All* and *3-2-1*, will visit ethnic clubs and communities to offer places on the shows to coloured immigrants.

White applicants wishing to appear on the shows will have to go through the normal channels.

CHEERS AND APPLAUSE AS ....

■ Eyes Right, Cheers and applause

# COLERAINE WELCOMES THE FRONT

ON Saturday 9th June over 300 National Front members and supporters marched through the centre of Coleraine to the applause of local townspeople. The march came as the culmination of a recruitment campaign throughout Northern Ireland which has resulted in many new members and substantial organisational growth.

About 30 NF members from England travelled over to Ulster for the march arriving in Coleraine at about 1.00 p.m. on Saturday. Already a number of local NF members were assembling and these were soon joined by a coach full of members from Belfast.

■ Locals from Berties Bar rush to cheer the marchers.

When the march got under way it was led by a full colour party of Union Jack flags and Ulster flags. When the column was about a mile from the Town Hall the leaders were warned by the police that there was a large hostile crowd near the Town Hall.

When the column was about 200 yards away it was possible to see a large crowd about four deep lining the road to the Town Hall. However as the column got nearer the crowd burst into applause and cheering.

At the side of the Town Hall a mob of about 200 Reds and Republicans including the notorious Gerry Adams was chanting anti-NF slogans. The

police rapidly had to intervene to keep local people from attacking this mob.

Inside the packed Town Hall well over 300 people listened to the rally chaired by Jim Morrison, Belfast NF Organiser, which was addressed by Phil Andrews, Directorate member, Joe Pearce, Chairman of Young National Front, and Ian Anderson, NF Deputy Chairman. A collection was held, a proportion of which is being given to help Loyalist Prisoners of War.

A smear campaign in the newspapers attempted to turn Ulster Loyalists against their friends in the National Front. On the day this campaign failed.

■ A packed Coleraine Town Hall.

## WHAT IS MEANT BY RACIAL NATIONALISM?

RACIAL-NATIONALISM is a political philosophy for White people. It is based on three main principles:

### Laws of Nature

\* NATURAL ORDER - We believe that the world is governed by the laws of Nature. In order for Man to be happy and successful, he must first learn what these laws are and then follow them. We believe that Man is a part of the natural world and that he is in no way separate or distinct from it. Because of this, we believe that society should be structured in accordance with the laws of Nature, and not in opposition to them as is the case today.

### Protection

\* RACIAL IDEALISM - Racial Idealism is based on the love of one's own people. It means placing the interests and welfare of the White people ahead of your own personal interests and desires. As racial idealists, we have no wish to harm, persecute or exploit other racial groups. We are only interested in protecting our own people.

We believe that all men are *not* created equal. Just as every individual has his or her own strengths and weaknesses, so each race has certain qualities that make it different from other races. We believe that the White race has the right to control its own destiny. We also believe that the White race has the right to defend itself against all attacks - no matter where they come from.

### Achievement

\* THE UPWARD DEVELOPMENT OF THE WHITE RACE - We want to see it improve. This can only be done by encouraging a healthier birthrate amongst the White people. We need to foster a healthy, strong and intelligent White race. At the same time, science should work to eliminate hereditary weaknesses and diseases - such as cancer - among our people. Our goal is that each new generation of White children will be better than the one before it.

Racial Nationalism. It's worth fighting for!

In the United Kingdom of Great Britain and Northern Ireland, Racial-Nationalism is represented by the National Front, which was founded by A.K. Chesterton in 1967. For more information on the NF and its beliefs, write to: 50 Pawsons Road, Croydon, Surrey, CRO 2QF, or 'phone: 01-684-0271.
